RE: Permit to Appropriate Water No. 15-7275

Dear Permit Holder,

The Department has received your January 13, 2009 letter in regards to total 2008 water use under Permit No. 15-7275. Your letter will be added to the file.

Condition of approval No. six (6) on the permit approval states:

"After specific notification by the Department, the right holder shall install suitable measuring devices on all authorized points of diversion, record the quantity of water diverted, and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code."

At this time the Department does not require the installation of measuring device(s) and the recording and annual reporting of the diversion of water under Permit No. 15-7275. However the Department will accept the collection and annual reporting of the diversion of water under this permit if you so choose.

If you have any questions please don't hesitate to contact me.

Regards,

Nick Van Dyke
Agent, Water Allocation Bureau
