

MEMORANDUM

Date: May 22, 2012
To: Transfer 77600
From: amerritt
Re: review and approval

This transfer was processed in the region. It was advertised without protest.

The watermaster has reviewed the application and opposes approval of the transfer due to the small amount of water for the relative large PPU acres. The comment does not take into consideration that the right was decreed for 35 acres and will be limited to 35 acres in the PPU. The comment also speaks to the fact of a potential futile call but this should not be the basis of denial of the transfer. A modified 206 condition was made to provide the watermaster with the ability to monitor the use of the 1879 water so the right is not enlarged.

It is being approved out of the region as drafted.
