Subject: Re: Water Right Permit 95-10027

Hello Craig,

Yes the main well is on lot 1. I did not see it on the map. We also have a well pump on lot 2 but the main well is on lot 1. Hope this helps. Linda Fucone

Dear Ms. Fucone,

IDWR received the Statement of Completion for submitting proof of beneficial use and is sending you confirmation by regular mail. You should receive that in the next couple of days.

I was looking at the file and was wondering if you could help me locate the well that you use for your domestic and irrigation use. The permit says the well is in lot 1, or in the vacant lot to the north of you. However, sometimes the well is actually drilled in a location that is different than describe on the permit. So I was hoping you could verify the location of the well.

I have attached a picture of your property and was wondering if you could either locate on the picture the well location and e-mail the picture back to me, or if you could describe the location from the picture . I mainly want to know if it is located in Lot 1 or Lot 2.

I got your e-mail address from your statement of proof of beneficial use. I hope it is ok to contact you this way. I just thought it would be an easy and quick way to send you a map.

Thanks for your time,
Respectfully,

Craig L. Saxton
