Subject: Field Exam for Permit 73-7124: Big Creek Ranch LLC

Hey Roxanne,

The word on the street is that SPF has been retained to conduct the licensing field exam for permit 73-7124 in the name of Big Creek Ranch LLC.

I spoke with Nick Van Dyke and he said the he spoke with the permit holder around October of 2011 and the permit holder mentioned that SPF would be doing the field examination. Then, I understand correctly, Nick spoke with you a little about it, but you couldn't do the field exam because it was too late in the year.

There has been a request from the Departments Water Compliance Bureau to prioritize licensing 73-7124.

What is the status of conducting the field examination for this permit? If my information is incorrect and SPF is not hired to conduct the licensing field examination, then just let me know and the Department will do it.

I am just wondering where we are at with this one.

Thanks,

Craig
