RE: Permit 37-8306

NOTICE OF INTENT TO VOID PERMIT

Dear Water Right Holder:

The Department of Water Resources (IDWR) is in the process of reviewing the above-mentioned permit (copy enclosed) for licensure for a pond that is located at 414 Morning Star Rd in Ketchum. As part of the review, IDWR confirms that each condition of approval has been met during the development period. In the case of permit 37-8306, it is not apparent how the following condition has been satisfied:

A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.

In order to issue a license, you must submit documentation that this condition has been complied with, install lockable and measuring devices as required on your permit as soon as possible, or request removal of the lockable and measuring device requirements from the permit. If you request removal of the requirements you should also submit documentation that this request would be acceptable to the watermaster of Water District 37, Big Wood.

The watermaster for Water District 37, Big Wood can be reached at:

Kevin Lakey
107 W 1st
Shoshone, ID 83352
(208) 886-2451
watermanager@cableone.net

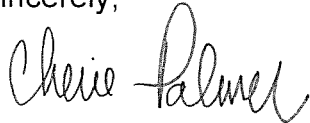

IDWR will hold further action on this permit for 30 days from the date of this letter in order to allow you time to respond. If a response is not received in the allowed time, we will assume that you are not interested in pursuing a water right license and will take action to void the permit.

Lastly, §42-248, Idaho Code, requires that the property owner of this water right maintain current ownership and address records on file with the Department. I have enclosed the forms to change ownership for your use.

Please contact me at (208) 287-4944 if you have any questions regarding this matter.

Sincerely,
