**PROOF ACKNOWLEDGEMENT LETTER**

**RE: Permit No. 32-13275**

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

During my review of your proof statement and water right permit, I found that condition no. 4 of this permit states:

"The right holder shall install a measuring device that can be used to determine the instantaneous rate of flow of water through the system, or the right holder shall provide to the department a flow rate measurement or computation made by a certified water right examiner in accordance with actual system design and operation."

I recommend that this condition be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office or at the department's website at: [www.idwr.idaho.gov](http://www.idwr.idaho.gov)

If you have any questions concerning the field examination, please contact the **Eastern** Regional Office of the department in Idaho Falls at (208) 525-7161

Sincerely,

Darla Block  
Technical Records Specialist
