Nick:

Attached is an amended water bank rental for Lee Sutton that supercedes the prior application and proposed rental that was sent to him. The only thing that is changed on this application is the designation of acres. I did this because after meeting with Lee, we determined that the best thing for him to do is to file a transfer to amend his water rights to cover lands under his pivots and at a few corners. The water bank rental will add 46 acres to that amount, which will give him enough (in combination with a number of other water rights that allow for irrigation of 838 acres) for an 884 acre permissible place of use (see the attached map showing the 884 acres outlined in yellow).

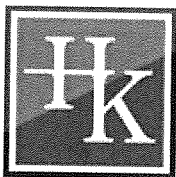

Monica felt that it would be easier to reissue the water bank rental agreement with the corrected acres. You should already have the attachments (consents), so I'm not sending those again.

I am also not going to send the application by mail unless you need me to. Let me know if you do need an original, and I could get it sent tomorrow.

I plan on filing the transfer by the end of this week that will correct the other water rights.

Please call me and let me know if you have any questions or concerns.

Thanks,

Robert L. Harris
