Re: Water Supply Bank Applications for WG Farms

Dear Monica,

Attached are four WSB applications for water rights 36-2415A, 36-15356A, 36-2550 and 36-8212 appurtenant to the WG Farms permissible place of use on property in T.07S R.24E, 25E in Minidoka County, ID. The applications for water rights 36-2415A and 36-15356A propose to lease all of each water rights to the WSB as these two rights are stacked. The applications for water rights 36-2550 and 36-8212 propose to lease a portion of each water right. Because these two water rights are also stacked, split calculations using methods acceptable to IDWR have been attached, as is a map showing the proposed areas to be dried up under each set of water rights.

Also attached is Brockway Engineering check # 10764 for \$500.00 for all four lease applications. Please copy our office on all correspondence regarding these water supply bank applications. Thank you for your assistance on this matter and if you have questions or comments, please don't hesitate to call.

Regards,

Zach Latham, M.S., Hydrologist
