Subject: QA Rivew 95-15397

Hey Keith,

Permit 95-15397 popped up for QA review. I see on the application for permit, on page 2, the information at the bottom of the page wasn't filled out...Received By, Date, Receipted by, etc. That is something we need to watch out for as it almost looks like what is in the file isn't the original application for permit.

Thanks Keith,

Craig
