ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, GARY SPACKMAN, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 65-22889 with the following:

CONDITIONS OF APPROVAL

1. This right does not grant any right-of-way or easement across the land of another.
2. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
3. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.
4. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
5. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
6. Place of use is within the service area of North lake Recreational Sewer & Water District as provided for under Idaho law. The place of use is generally described as located within Section 17, Township 16 North, Range 3 East.
