RE: Permit Nos. 95-9376 & 95-9377

Dear Permit Holder:

On April 30, 2012 the Department received two requests for extension of time for filing proof of beneficial use on the above mentioned water right permits. I have reviewed the requests and determined that an Assignment of Permit form and fee are required before I can process your extension requests.

A change in ownership from an individual to a business entity (even if the business is owned by the individual) is a change subject to the filing fee according to Section 42-218, Idaho Code. I am enclosing an Assignment of Permit form that assigns ownership of a permit from the current permit holder to a new owner. Since Jason Plummer is the current owner of record with the Department for these two permits, Jason must complete the assignment and return the form to the department with the \$25.00 filing fee.

I am returning both your original extension request forms just in case you decide the need to change your extension request forms to reflect the full 5 years allowed, since both extensions will be considered the last extensions allowed by the Department for due diligence according to Section 42-204(5), Idaho Code. Also, the signature appearing on the request for extension of time forms does not appear to be that of Jason Plummer. If someone other than Jason Plummer signs the extension requests it must be someone having authority to sign on behalf of the Company, such as a listed member.

Please complete the enclosed assignment form, make any changes needed to the extension request forms, and return all forms back to me. I will hold this matter for 15-days for a response. Upon receipt and processing of an assignment, I will acknowledge the requests for extension of time and provide you with a new proof deadline.

If you have any questions, please feel free to contact me at (208) 287-4945.

Sincerely,

Darla Block
