Mr. Shelley Keen
Hearing Officer

Re: Request to postpone May
hearing for consideration of Application
of Permit 65-23451 and Application
for transfer both filed by Allen
Ranch LLP.

Dear Mr. Keen,

We oppose the requests listed
above for Mr. J.R. Allen to
postpone hearing dates from May
until July.

By July fire season is upon
us, with the under growth of
ground foliage as well as the
great amount of trees, fire would
be devastating as well as leaving
the beautiful area scared for
many years to come.

Secondly by changing or diverting
the water flow, it would effect
all homeowners on West Mountain
of the ambience we all enjoy.
And in closing, putting these
hearings off until July will

put the entire area at risk of fire, without water to hopefully avert any such disaster from happening.

If these hearings are in May the water flow in Richard Creek should not be altered and the safety and well being of residents on West Mountain would be better established.

Both my husband and my self will be available at May 8-9 dates.

Sincerely

Lawrence & Gloria Hendon
