

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 63-33626

Priority: February 10, 2012

Maximum Diversion Rate: 0.28 CFS

This is to certify, that JOE WATTERSON And/Or JOSH GUFFIE
12601 W NEW HOPE
STAR ID 83669

have applied for a permit to appropriate water from:

Source: GROUND WATER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/01 to 11/15	0.26 CFS
STOCKWATER	01/01 to 12/31	0.02 CFS

LOCATION OF POINT OF DIVERSION:

GROUND WATER L5 (SW1/4NW1/4) Sec. 6, Twp 04N, Rge 01W, B.M., ADA County

PLACE OF USE: IRRIGATION

Twp Rge Sec	NE				NW				SW				SE				Totals

04N 01W 6							2.0	11.0									13.0
							L 5										

Total Acres: 13

PLACE OF USE: STOCKWATER

Twp Rge Sec	NE				NW				SW				SE				Totals
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
04N 01W 6							X	X									
							L 5										

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **May 01, 2013**.
2. Subject to all prior water rights.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
4. Water bearing zone to be appropriated is from 100 to 140 feet.
5. Stockwater use is for 50 range cattle.
6. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 63-33626

7. For each irrigation season, diversion and use of water under this right shall either be supplemental to the diversion and use of surface water to irrigate the place of use, or it shall be the sole, primary source of water to irrigate the place of use, depending on specific crop requirements. The right holder shall keep records to justify primary or supplemental use of water pursuant to this water right for each irrigation season. The right holder shall provide the records to the Department upon notification.
8. When this right is used for supplemental irrigation, the right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. In those circumstances, the right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
9. The right holder shall pay all assessments levied by Farmers Union Ditch Company to maintain the right to receive surface water to irrigate the place of use authorized for this right.
10. If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used for irrigation purposes without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
11. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
12. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 2nd day of May, 2012.

RE: Permit No.63-33626

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-334-2190.

Sincerely,

A handwritten signature in black ink, appearing to read "John Westra", with the word "for" written in smaller letters below it.

John Westra

Western Regional Manager

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on May 3, 2012 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

INSTRUCTIONS FOR FILING PROOF OF BENEFICIAL USE

HOW TO MAKE PROOF:

In order for a permit holder to fulfill the conditions of the permit to obtain a water right license, the permit holder must submit the Statement of Completion for Submitting Proof of Beneficial Use form (proof) together with the license examination fee (if required) **OR** submit the proof together with a completed field examination report prepared by a certified water right examiner on or before the date set in the permit for the proof. The information submitted by the permit holder will enable the department to determine the extent of beneficial use before the license is issued. The information entered on the proof form should show the extent of actual development of the project and should correspond to that authorized by the permit. If it does not, an amendment (change) to the permit may be required.

WHAT TO DO IN CASE YOU HAVE NOT FULLY APPLIED THE WATER TO BENEFICIAL USE:

If the development authorized by the permit has not been completed in the time allowed, the permit holder may submit a request for extension of time in which to submit the proof. In order for a request for extension of time to be considered without loss of priority, it must be filed prior to the date on which proof of beneficial use is due. Each request for extension of time will be considered on its own merits.

WHAT IF YOU FAIL TO MAKE PROOF OF BENEFICIAL USE ON TIME:

If you have applied the water to beneficial use, but did not submit the proof of beneficial use on or before the date set for the proof, the permit will lapse. A lapsed permit may be reinstated **within sixty (60) days** from the date the department sends the lapse notice. In order for the department to reinstate the permit, the permit holder must show reasonable cause why the permit should be reinstated. Submission of an acceptable proof of beneficial use form within the sixty (60) day period will be considered as reasonable cause for reinstatement.

If you applied the water to beneficial use and **more than sixty (60) days** have passed since mailing of the lapse notice, proof of beneficial use must be submitted with a statement of reasonable cause for filing late proof of beneficial use, a Beneficial Use Field Report prepared by a certified water right examiner, and a reinstatement application fee of \$250 pursuant to Section 42-218a(2), Idaho Code.

EXAMINATION FEE:

Section 42-217 and Section 42-221, Idaho Code, require an examination fee as part of the proof of beneficial use submittal if a completed field examination report prepared by a certified water right examiner is not submitted as part of the proof. The fee is based upon the rate of diversion or volume of water claimed on the proof of beneficial use form. **The appropriate fee can be determined from the license examination fee schedule on the back of these instructions.**

ISSUANCE OF LICENSE:

The department will issue a license of water right based on the determination of the amount of water beneficially used in compliance with existing law. The license will include specific information to describe the water right developed.

NOTE - You must comply with the conditions of approval of your permit or seek to have the department waive the conditions. (See the section titled "Conditions of Approval" near the bottom of your permit).

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

A license examination fee is not required in connection with permits which use a ground water (well) source **AND** have a total rate of diversion of 0.04 cfs or less or where the total volume stored is 4.0 AF per annum or less.

A license exam fee is required for ANY permit which uses surface water.

Checks should be made payable to the Idaho Department of Water Resources (IDWR.)

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

PROPOSED CHANGE OF WATER RIGHT(S)

Riverside Village HOA Inc. of 5537 N. Glenwood St. Suite A, Garden

City, ID 83714 filed Application No. 77710 to transfer 2 water rights

with 1981 priority dates. One right authorizes 3.21 cfs from the Boise

River for aesthetic use, with return flows to the river via Riverside Creek.

The other right allows 3.21 cfs from Village Lake (aka Glenwood Lake) to

irrigate 11 acres of greenbelt etc. and provide a water amenity (subdivision

ponds). Uses are for Riverside Village Subdivision north of the river

and west of Glenwood. Application proposes to correct the records for

existing uses: 11 acres of irrigation in a 66 acre area, and 12 aesthetic

ponds spread throughout the subdivision. Creek and lake names are local

names, not naturally existing features.

Permits will be subject to all prior water rights. For additional information

concerning the property location, contact Western Region office at

(208) 334-2190, or for a full description of the rights &/or proposed

transfer, please see www.idwr.idaho.gov/apps/ExtSearch/WRfiling.asp.

Protests may be submitted based on the criteria of Sec 42-222 and 42-

203A, Idaho Code. Any protest against the approval of this

application(s) must be filed with the Director, Dept. of Water Resources,

Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest

fee of \$25.00 for each application on or before 4/2/2012. The

protestant must also send a copy of the protest to the applicant.

Gentlemen:

I just completed an initial review of your application for water right permit and find that I need more information.

We need to know what water bearing zone you plan to appropriate (this is the area in the well that you propose to place your pump). Your application states that you plan to drill the well to a depth between 50 and 150 feet. Please complete the following sentence and return to me so we can get your application advertised.

Water bearing zone to be appropriated is from _____ to _____ feet.

We also notice that you have surface water from the Farmers Union Ditch Company for this land. What are your intentions for this water? Do you plan to use the well when the surface water is not available or was it your intention to use the well water only? We normally would condition this proposal that surface water must be used prior to use of the well water. Will the use of surface water be problematic in the organic operation? Please advise us of your intentions concerning this matter.

If you have any questions or concerns regarding the above, please feel free to e-mail or call me at 334-2190.

Sincerely,

KAY WALKER
