PRIORITY DATE: 07/01/1912

While the United States has the privilege to use 2,700 cfs for the development of power under water right nos. 01-00217 and 01-00218, it will be the objective of the United States in the operation of the Minidoka powerplant to limit the exercise of water right nos. 01-00217 and 01-00218 for power production at the Minidoka powerplant whenever operation of the Minidoka powerplant to the full extent of these water rights for power production would result in loss of water otherwise storable in the reservoir system. Accordingly, except as it is determined by the Secretary that additional water may be passed through Minidoka Dam without the loss of water that could be stored in the reservoir system, the United States will limit the release of water through the Minidoka Dam. To the extent that it is practicable to do so, the Watermaster and the Water District 1 Advisory Committee will be informed in advance of any plans for the release of water in excess of the foregoing limitation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store and distribute water pursuant to water right nos. 01-00219, 01-02064, 01-02068, 01-04055, 01-10034, 01-10042, 01-10043, 01-10044, 01-10045, 21-02156, 21-04155, 21-10560, 25-07004.
