Will do! Got an email from Dan Nelson the other day asking me to compare the newest transfer (you haven't yet submitted involving rights 45-2578, 45-2597, and 45-14060) with the water bank application and make sure there weren't any problems. They are compatible but I did notice that you are proposing to put 64 acres in the bank (32 each from the NESE and the SESE of Section 18) but the current water rights list 34 acres in the NESE and 33 acres in the SESE. What will happen to the 3 extra acres?

Hi Jean,
I'm attaching a copy of the executed Water Rights transfer for Beukers. Where should I send the original?

Hello Gary,

I checked with Monica, and she hadn't completed the Water Supply Bank (WSB) approvals yet. Therefore, you still have time to amend the applications. You can send WSB lease amendments to me at the State Office. I took the files back over from Monica to finish these out, since there is still time to amend the applications. **However, we can only hold these files until Friday April 20, 2012. If we don't receive the files by that day we will go forward with approval of what we have, and your client will need to file a new application for the additional 3 acres.**

Thank you Gary.

Hi Jeanie,

I am working on those other three Water Supply Bank lease applications for John and Ruth Beukers on a portion of water rights 45-2578, 45-2597, and 45-14060 that we spoke about. I have attached a copy of my review memo and the map supplied with the Water Supply Bank lease applications. Could you please review them to see if they are going to cause any problems with the water right transfers you have for the Beukers? I would appreciate it.

Your calendar says you are on spring break, so enjoy yourself, and get back to me when you can.

If you have any questions, please don't hesitate to contact me.

Thank you Jeannie,
