Danni,

It looks like there are at least three different things going on here with William and Ida Reinig being the common denominator.

1. The Notice of Change in Water Right Ownership is for water right 65-10169 from Reinig to Harris. This water right has been decreed and there is also corresponding Well Driller's Report, both for Sec 26, T9N, R4E in Garden Valley.
2. The October 15, 2000 Bill Of Sale from Reinig to Harris is for a recreation residence (summer home) on the national forest under special use permit at Williams Creek Summer Home Area in Sec 29, T10N, R3E, about 7 miles above Banks on Hwy 55. It appears that Reinig's had a special use permit for a recreation residence, that the residence was sold to Harris's, and Harris's now have a special use permit for the recreation residence.
3. The water right for the Williams Creek Summer Home Area is 65-02506, owned by the USDA Forest Service.
4. There is a separate special use permit issued to the Williams Creek Summer Home Association c/o Gary Hall for the water system serving this area through which the water is delivered to the individual cabin owners and special use permit holders.
5. Harris's would not appear to have sole and exclusive use to the water right or the water system.

With respect to 65-02506, there should be no change of ownership for this water right. If a change is contemplated please notify me as soon as possible and before any change is consummated.

If you have any questions about this matter please contact me.

Thanks for contacting me about this. I appreciate it.
