Re: Transfer Evaluation

Transfer No. 77806 for water right no. 01-10473 and 01-0235B proposes to add a point of diversion, and to split water right 01-10473 into two pieces. The application was submitted by Rocky Mountain Environmental on behalf of Woodville Canal Company. The transfer would allow a portion of water right 01-10473 (3.64 cfs) and all of water right 01-0235B to be diverted from a pump located in the Snake River.

Authority to file:

The water right is currently in the name of Woodville Canal Company, and the application was signed by Doyle Rumsey, Secretary of Woodville Canal Company. The place of use is currently owned by Oxbow Partners LLC, the shareholder of Woodville Canal Company.

Validity of the Water Right:

The water right was decreed in January 2008 and forfeiture does not appear to be a concern.

Injury to Other Water Rights:

No injury issues were identified.

Enlargement of Use:

No issues identified.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
