322 East Front Street
Boise, ID 83720

Re: Second Request to Postpone the May Hearing for protested Application for
Permit 65-23451 and Application for Transfer 77121

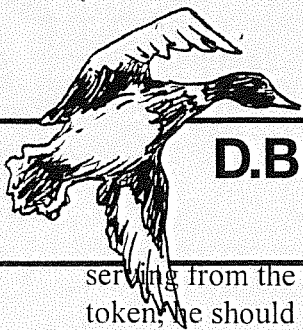

Dear Mr. Keen:

Recently I have received the notice from the Department of Water Resources concerning a second request by ALLEN RANCH, LLP to postpone the hearing scheduled for May 8 and 9, 2012, for the purpose of consideration of Permit 65-23451 and Application for Transfer 77121. The stated purpose was that Mr. Allen has plans to be out of the country at this time. His recommendation is that this hearing be postponed and combined with a West Mountain Water Association hearing scheduled for July 17 and 18, 2012.

I have since then received a copy of a letter from Sandra and Lawrence Chess requesting that the hearing in May not be postponed and listing multiple valid reasons for this objection.

Personally, I would not be against the postponement except that by the middle of July this country in is (1) the middle of fire season and the entire area is in jeopardy and (2) also well into the stock watering and/or irrigation season. IF the IDWR could get a written, signed and notarized guarantee from Mr. Allen that NO WATER would be diverted from the contested point of diversion until after the hearing set for July 17 and 18, 2012, (that Mr. Allen himself proposes to combine with the already scheduled Ford and West Mountain Water Association hearing), then I support the postponement. IF Mr. Allen could not agree to this and honor this injunction concerning water usage, then I would support his forfeiting all claims to new permits and to any changes that would reduce the use of water by Mr. Ford and the West Mountain Water Association.

In other words, Mr. Allen can either go out of the country and leave water for sharing with the other entities or he can postpone his foreign trip and meet with the IDWR on May 8 and 9, 2012, as originally scheduled. I would think that it would be his choice to be a reasonable gentleman and neighbor about this situation or prove that he chooses to be very difficult and self-

D.B. Clark **LAW**

serving from the outset. We should not determine Mr. Allen's travel plans but, by the same token, we should not be able to determine the new use of limited water resources in this controversy until after a full, open debate and hearing are held by the IDWR.

Thank you considering this proposal. Please via e-mail to agclark@clearwire.net or agclark@dbclarklaw.com and/or with a telephone response to 345 - 6960 (home) or 475 - 2050 (office).

Sincerely yours,

Anne Gaffney Clark
