Subject: Hearing dates for application 65-23451 and 77121

Good Afternoon,

We are inquiring about the hearing dates for the above referenced applications. Originally the hearing was scheduled for May 8th and 9th, with exhibits due by April 24th.

We are prepared to submit our exhibits but need to know if the date of the hearing is going to be postponed, and if so, will the date that the exhibits are due also be postponed.

We will hand deliver the exhibits on the 24th during business hours, but of course will expect the same from the applicant. If the date will be extended it is important that we know no later than Monday, April 23rd.

We will look forward to your response.

Thank you,

Sandra Chess
