RE: WATER SUPPLY BANK LEASE FOR RIGHT NOS. 61-12272 AND 61-12273

Dear Lessor:

This letter is to update you on the status of your water rights 61-12272 and 61-12273 for irrigation in Elmore County. These water rights have been leased to the Bank since August 28, 2003. **Your water rights are considered leased into the Bank and should remain unused until you release them from the Bank.** However, only portions of your water rights were leased to the Bank. Because of the way the rights were leased to the Bank, it has been difficult to determine since the ownership change how much of the lease remains in your name.

It is important to determine how much is leased under your name so appropriate payment can be made if and when the right is rented. Additionally, improper irrigation of leased acres could be grounds for a notice of violation of your water rights.

Please indicate the acres to remain leased to the Bank by outlining the acres to remain leased to the Bank on a map and sending the map to the Department with a list of the number of acres to be leased per 40-acre tract (also known as a quarter-quarter or QQ). I have enclosed a map for your convenience. Feel free to contact me at (208) 287-4907 if you have any further questions.

Sincerely,

Monica Van Bussum
Sr. Water Resource Agent
