Re: Protested Application For Permit No. 94-7423

Dear Ms. Dougall:

Enclosed is a draft permit, for the above said application that contains conditions that may satisfy the protest of your application by the Department of Fish & Game. Condition #8 is the one of most concern and is one that would be part of all permits anyway because of the minimum stream flow on the Coeur d'Alene River.

A copy of the draft permit has been sent to Fish & Game and the Department of Water Resources is waiting for their response. In the mean time, please review the draft permit and if it meets with your satisfaction to satisfy the protest, please send me a letter stating you agree with the draft permit as written.

If you have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

Keith E. Franklin
