

## MEMORANDUM

**Date:** November 03, 2011  
**To:** Water Right File 85-15683  
**From:** kfranklin  
**Re:** General

---

The Idaho Department of Fish and Game submitted a letter of concern regarding this application. The applicant and Fish & Game could not come to an agreement. The applicant requested the department to advertise the application. The department notified Fish & Game of the applicants request along with the dates of the advertising. After the close of the advertising period, Fish & Game did not file a protest. However, as a response to Fish & Game concerns, the department requested the applicant to submit a report by a professional hydrogeologist that addresses their concerns. The report was submitted and based upon its findings, the department proceeded with the issuance of a permit.
