To: Idaho Department of Water Resources

We are applying for another point of diversion located at T11S R27E S7. The reason for this is because our current well pumps a lot of sand each year. This causes a lot of pump repairs that we have to do each spring. We are hoping that by drilling a new well and reduce the gallons pumped from the current well and have two wells pumping, that is will reduce the amount of sand being pumped from the current well.

Sincerely,

GW Finance, LLC
