Re: Permit Application and Amended Transfer Application in the names of
Julia and Jude Damasco

Dear Mr. Skinner:

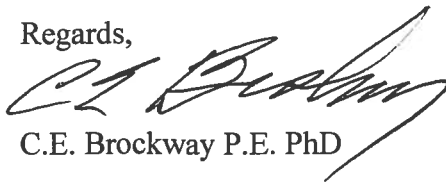

Thank you for meeting with me on March 23 to finalize the applications. Pursuant to your letter of March 20, 2012 and our meeting, I have prepared the application for permit on IDWR form 202 03/10 as you requested and specified the flow rate for wildlife, recreation, and aesthetic use. In addition, the amended application for water right transfer now indicates wildlife, recreation, and aesthetic storage with the estimated annual evaporation from the pond as the annual volume.

The narrative accompanying the previously submitted permit and transfer applications did not indicate or provide comment from the Hiawatha Canal Company. I have asked Fritz Haemmerle, attorney for the Hiawatha Canal Company, to secure the Company's concurrence with the proposed permit and transfer.

I have enclosed Brockway Engineering Check #10662 for \$100.00 as per your instructions to cover re-advertising of the permit and transfer applications.

Thank you for your prompt attention to these applications.

Regards,

C.E. Brockway P.E. PhD
