Monica,

In light of our recent verbal correspondence concerning the lease application for 16.2 acres of primary ground water from water right 36-16920. . The cover letter submitted with the lease application may have been unclear regarding the primary or supplementalness of the 16.2 acres to be leased to the Idaho Water Supply Bank. Therefore, it is necessary to clarify that the entire 36-16920 water right is primary and is intended to remain primary.

Thank you,

Greg Sullivan
