Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes adding a new well to be drilled on a CAFO located approximately 2.3-2.5 mi. east and 6.0-6.25 mi. north of the center of Jerome. The new well and an existing well will be used to divert 0.06 cfs and a total of 13,000 gallons per day for domestic (one home) and stockwater uses at the CAFO facility.

- **Authority to File:**
The applicant is listed as the current owner of the right involved with the transfer according to IDWR records.
- **Water Right Validity:**
The right involved with the transfer has been decreed in the SRBA as valid rights. Recent aerial photos of the area show the CAFO has been in continuous operation.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated. The right is limited to the domestic use definition of 13,000 gallons per day.
- **Local Public Interest:**
No issues anticipated. No hydrological impact anticipated. Both wells are in same model cell. Request no advertisement process.
- **Beneficial Use/Conservation of Water Resources:**
Proposed uses are recognized as a beneficial use of water and does not change.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
