

MEMORANDUM

TO: Water Right Files 36-2083A, 36-2083B and 36-8593
FROM: Monica Van Bussum
DATE: April 10, 2012
SUBJECT: future Blue Lakes Country Club leases

Per additional correspondence with Cindy Yenter, Watermaster of Water District 130, we need to closely and in conjunction with her, review the acres to be offered for lease from Blue Lakes Country Club under these rights. There is a GCDB shift in the area making it hard to determine where the water right POU shapefile is most appropriately placed, and BLCC may be irrigating outside the authorized POU.

This memo is being placed in the file as a reminder to the Water Supply Bank to closely review future lease applications to avoid enlargement.
