Re: POU description of QQ's

Permitted POU described as being in: Sec. 14, Govt. Lot 3, (NESW)

The proposed licensed POU is described as being in: S14, Govt. Lot 3 (NESW)
S14, Govt. Lot 3 (NWSW)

When you compare the Section 14 GCDB lines available in ArcMap with the Original Survey obtained off of the BLM website, it is clear that the division between the NESW and NWSW QQ description within Govt Lot 3 is undefined. The true POU description is Govt Lot 3.

The QQ description added by IDWR is a clarification to provide reference of where Govt Lot 3 falls within Section 14. It is not appropriate to request an amendment in order to re-describe the QQ designations for the POU within Govt. Lot 3 as the boundary between the NWSW and NESW is not applicable to the legal description of the place of use and is up to interpretation.
