Monica,

RE: Frisby Water Supply Bank Rental

We dropped off the original signed agreement with your receptionist this afternoon. I'll bring a check by as soon as I get it.

Fred

Maureen,

Based on Fred's email below, could you please mail a check to Fred prior to IDWR's payment 4/13/2012? The rental agreement will authorize irrigation of government lands west of the freeway during the 2012 irrigation season once the payment is recieved. Please let me know if you have any questions.

Lori,

RE: 2012 Water Supply Bank Rental Fee is due (\$2,426.20)
Rod & Maureen Frisby Trespass #1 (IDI-36879),
LUP Application (IDI-37005),

BLM land: T06N, R04W, S25, NWNENW, S1/2N1/2NW
BOR land: T06N, R04W, S25, SENENW (IDI-015070, SO 04-15-1919, Wdl Boise Recl Proj)

Attached is a copy of the Water Supply Bank Rental Agreement that I signed and filed with IDWR today. IDWR will reject it after a few days if a check for the \$2,426.20 rental of 2012 water isn't received (see attached letter). Please have the Frisby's provide me a check for that amount which is made out to "Idaho Department of Water Resources," and then I'll get that over to IDWR so they can finish processing the water lease.

Lori,

I submitted a new application to the Water Supply Bank on 03-16-12 (see attached). Sorry, I forgot to shoot a copy your way. I signed up for 2 years of leasing so that we wouldn't have to do it again next year. IDWR sent me an acknowledgement letter on 03-21-12 (also attached).

With regard to an application for Water Permit, I didn't want to file one until an Ag Permit is actually issued, since the field office could deny it, or decide that the use would only be short term. I meant to remove the reference to a water permit application from the 2011 water supply bank application but forgot. If the BLM field office denies the application for Ag Permit (which I don't expect), then there is no sense filing an application for water permit; and if the field office decides it can't entertain a long term use, then again, there is no sense filing for a water permit, as we can lease water for the short term.

Fred,

It looks like Frisby's will need to rent water from the bank again this year for irrigation of BLM lands while paperwork continues to be processed. I noticed in your application for last year (attached), on item D.6. you referenced an application for permit submitted by BLM and stated that "this leased water is to cover existing use by the Frisby until water permit is approved".

I prepared the application you referenced for BLM and sent it to you for follow-up May 24, 2011, however I cannot find evidence in IDWR's back files that it was submitted. It may be on hold and not scanned by the Department yet. Could you please send me confirmation that BLM submitted the referenced application for permit. Thanks Fred.
