Re: IDWR Application No. 63-12596.

Dear Mr. Spackman:

Enclosed for filing is a Withdrawal of Protest and Agreement of Conditions in connection with the above application signed by the Protestant, J. R. Simplot Company and the Applicant, Crane Creek Country Club, Inc. We are relying on the following statements contained in Crane Creek's Application as essential in considering the withdrawal of our protest:

"This application is for an increased diversion rate, only, with no increase in total volume of water produced."

"No expansion of the existing diversion volume of right no. 63-03108 is sought or intended."

We anticipate that as a condition to permitting this application you will require Crane Creek verify that the annual volume diverted under application no. 63-12596 does not exceed the annual volume provided under IDWR license no. 63-03108. Please consider Simplot's protest conditionally withdrawn when you receive this letter, and finally withdrawn when a permit is issued under application no. 63-12596 containing the attached conditions and a method to verify that the total annual volume will be limited to amount licensed under 63-03108.

Sincerely,

Vic Conrad
Simplot Land and Development
