**REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT**

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 63-12596

Name(s) of Permit Holder(s): Crane Creek Country Club

Mailing Address: 500 West Curling Drive, Boise, Idaho 83702

Date Proof is Due: January 1, 2002 Telephone No. 344-6529

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

All wells are drilled, equipped with pumping plants, and are being diverted to the system irrigating 116 acres at the full instantaneous diversion rate.

Costing \$ several \$100 K

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The work has been entirely completed and the water right put to beneficial use. The Proof Due Date and Proof Due Notice were both realized after the 2001 irrigation season. Because Crane Creek Country Club intends to have the water right No. 63-12596 field examination report completed by a Certified Water Rights Examiner, it was not possible to complete the field examination, after the irrigation season, without incurring unnecessary electrical power demand charges. Therefore, Crane Creek requests an extension of time to be able to have the Beneficial Use Field Examination conducted when the irrigation wells are reactivated in the 2002 irrigation season.

Permit holder(s) request an extension to October 31, 20 02

FEE: \$50.00

*If other than permit holder, Power of Attorney must be supplied.
