Subject: 75-07505 Permit Amendment (3-30-12)
Attachments: 75-07505 Permit Amend (3-30-12).docx

Hello John,

Here is the updated amendment we spoke about on the phone. We are going to have to amend the permit because of the change in the place of use description from Range 21 East to Range 22 East. So the question of if we need an amendment to add a second POD or not really isn't an issue.

Because of the change from stockwater to domestic use, I had to add one condition which is #6 on this permit. I also changed #8 from "stockwater" to "domestic". The max volume is still the same with Domestic being the purpose of use.

Let me know if you have any questions. If all looks good, sign page one and send back to me with the \$100 filing fee.

Thanks,

Craig
