Subject: Water Right 65-6356.

Danni,

A couple weeks ago, Simplot filed a change of water right ownership for water right nos. 65-6356 and 65-9429. These two rights were originally issued under the name Johanek. Water Right 65-9429 has been continuously used to irrigate land currently owned by Simplot. Simplot is the current owner of this right, and thank you for updating your ownership records to identify the current water right holder.

With respect to 65-6356; this water right is appurtenant to land Simplot does not own in Gov't Lot 1 of Section 8 T. 7N R.5W. This land is adjacent to the Snake River, which is also the border between the State of Idaho and the State of Oregon in this location. As you would expect, the public land survey for this particular location is composed of a number of irregular shaped government lots. Including water right no. 65-6356 was an inadvertent mistake and should not result in change to the ownership of this right. If you will please disregard our request to change the ownership of 65-6356; Simplot does not have any interest in this right.

The only right that should be changed is 65-9429. I apologize for any inconvenience and should you need to discuss this any further, please contact me. Thank you.

Vic
