RE: Request for Water Supply Bank Lease of WR 63-7011A, 63-32968 and 63-32970

Dear Mrs. Van Bussum,

The Deersky Ranch Subdivision Homeowners Association is submitting a new application for lease of water right 63-7011A to the water supply bank. Enclosed is water supply bank lease application for WR 63-7011A and a \$250 check for the application fee.

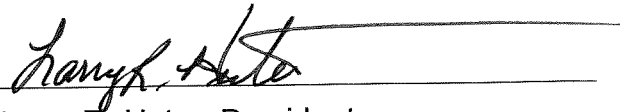

We are also requesting modifications to the lease terms of water rights 63-32968 and 63-32970 presently in the water supply bank. As you indicated during your recent phone conversation with our consultant Chris Duncan, the Department records show 100 percent of water right 63-32968 and 63-32970 are currently leased to the water supply bank. The Homeowners Association would like to modify these two leases by removing a portion of the water from the bank starting in the 2012 irrigation season and keep the remaining portion leased to the water supply bank. We have completed a water supply bank lease application form for each of these water rights to show the water amounts and acreages to remain leased to the water supply bank. You indicated in your conversation with Chris Duncan that the Department will not require a fee to modify the existing lease of water rights 63-32968 and 63-32970.

I have also enclosed a summary worksheet that details the portions of each water right to be placed into the water supply bank and to be retained for irrigation use by the Homeowners Association. Please note, the Homeowners Association would like a five-year lease duration for each water right.
