Re: Water Supply Bank Lease (2) and Rental (1) Applications- Alonzo B. LeaVell.

Dear Monica,

Attached are two water supply bank lease applications and one water supply bank rental application, all dealing with irrigation ground water right 36-22167 owned by Alonzo B. LeaVell, appurtenant to 31.0 acres in T.05S R.15E Sec.31, Gooding County, ID. Mr. LeaVell would like to lease 3.2 acres from 36-22167's present place of use and rent the same 3.2 acres for irrigation use on a northern adjacent property also owned by Mr. LeaVell for a 5 year period starting on March 21st 2012. The well associated with water right 37-8379 (owned by Development West Corporation, Mr. LeaVell- Director) at the rental POU is proposed to be used for the 3.2 acre rental portion of 36-22167. The rental portion of 36-22167 (3.2 acres) is to be used in addition to the existing 17.0 acre irrigation ground water right (37-8379) on the property. Because this well on the adjoining property where the 3.2 acres are proposed to be used is within an adjacent ESPA modeling cell to the wells associated with 36-22167, no modeling is required and no mitigation for the rental will be needed. The attached map shows the location where the 3.2 acres are to be rented and irrigated.

Additionally, Mr. LeaVell would like to lease an additional 6.0 acres from 36-22167's present place of use to the water supply bank for one year, also starting on March 21st 2012. A second map shows the location of the 9.2 combined acres of water right 37-22167 to be idled under the two attached water supply bank lease applications.

Please copy our office on all correspondence regarding these water supply bank lease and rental applications. Also included is a check from Brockway Engineering (# 10660) for the sum of \$500.00 to cover both water supply bank lease applications. Thank you for your assistance on this matter and if you have questions or comments, please don't hesitate to call.
