P.O. Box 83720
Boise, ID 83720-0098

Re: 36-8662 and 36-16920

Dear Mrs. Van Bussum:

Harry and Flora Bokma desires to lease to the Idaho Water Supply Bank two water rights. Both water rights were included in the recently approved transfer 77656.

Water right 36-8662 is a stock and commercial water right for 0.18/36.0 cfs/afa. It is proposed to lease the entire amount of 36-8662 for a period of five years. This water right is no longer needed at the current dairy facility and will be leased to the water bank until it is sold or transferred to a permanent location.

Water right 36-8662 has a combined limit with water right 36-10166 of 36.0 afa. Water right 36-10166 is an exempted water right for 13,000 gallons per day with beneficial uses of domestic and stock water. A relinquishment of water right form for only the stock water portion of 36-10166 has been submitted to the Southern IDWR office in Twin Falls, Idaho. The relinquishment of the stock water portion of 36-10166 will allow 36-8662 to be leased to the Idaho Water Supply Bank and eventually be sold and transferred off of its current place of use without splitting the exempted domestic water right 36-10166.

Water right 36-16920 is an irrigation water right. A 16.2 acre portion or 0.32/64.8 cfs/afa is proposed to be leased to the water bank for a five year period. The land that is currently irrigated by the 16.2 acres of water will be irrigated with canal shares. No water shares are currently used to irrigate the 16.2 acres. The 16.2 acres will remain in the water bank until they are sold or transferred to a permanent location.
