Subject: Water Bank Application, Notice of Change in Water Right Ownership

Dear Monica,

Enclosed on behalf of Geraldine Burgess is an application to lease a portion of water right 63-8269B to the water supply bank. Accompanying the application is a map showing the portion of the water right requested for submittal to the water bank, as required on page 2, item D of the water bank application.

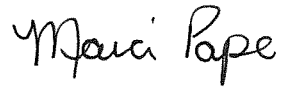

Additionally, I have enclosed a Notice of Change in Water Right Ownership, along with the appropriate conveyance document and a map. The change in ownership results in a split of Water Right 63-8269B, with Ms. Burgess retaining the southern and western 40 acres of the original parcel, as shown in the accompanying map, and a bank holding the remaining portion. The portion retained by Ms. Burgess is the same parcel proposed for submittal to the water bank.

The total acreage authorized for irrigation under water right 63-8269B is 81 acres. Ms. Burgess is requesting that ³⁹38 acres of irrigation be leased to the water bank, as that would be her proportional share of the original right, based on the relative locations of the parcels and the original GIS shapefile for 63-8269B.

As part of your review, would you please forward the Notice of Change in Water Right Ownership to the appropriate department for processing? Enclosed is a check for \$350 to cover the \$250 filing fee for the water supply bank application and the \$100 filing fee for the change of ownership.

Feel free to contact me if you have any questions or need further information. Thanks,
Monica.

Sincerely,

A handwritten signature in black ink that reads "Marci Pape". The script is cursive and fluid, with the first name "Marci" and last name "Pape" clearly distinguishable.

Marci Pape
Project Engineer
