CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **April 01, 2017**.
2. Subject to all prior water rights.
3. Right 74-15701 authorizes the diversion of an annual total of 0.5 acre-feet to be used for the initial filling of the ponds and for the replacement of losses caused by evaporation.
4. The three (3) ponds established by the storage of water under this right shall not exceed a total capacity of 0.3 acre-feet or a total surface area of 0.1 acres.
5. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 74.
6. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.
7. Upon specific notification by the Department, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion, in accordance with Department specifications.
8. When notified by the Department or by a watermaster with regulatory authority over this right, the right holder shall report the amount of water diverted in connection with this right. The report shall be submitted in the manner and frequency specified by the Department or the watermaster.
