Cody,

With respect to 74-07334 and 74-14964, permit 74-07334 would be for the trough and headbox installed 1992-1993 while decree 74-14964 would be for the use still at the original spring site.

The attached photo shows the trough in the shadow. It looks like on these real remote sites you take the picture for what it is at the time. Hopefully this will meet your needs.

If you have additional information needs on these two please let me know.

Thank you.
