This parcel contains 38.15 acres more or less.

Utility Notes

- The location of Utilities shown hereon are from observed evidence of above ground appurtenances only. The surveyor was not provided with underground plans or surface ground markings to determine the location of any subterranean uses.
- From observed above ground appurtenances only shown hereon, electric and telephone service is available for the subject property within the prescriptive public road right of way of Chicken Dinner and Lowell Roads.

Flood Note

Subject property falls within Zone X of the Flood Insurance Rate Map, Map Number 19027C0350F which bears an effective date of May 24, 2011; Canyon County, Idaho and Incorporated Areas, Panel 350 of 575. Zone X: Areas determined to be outside the 0.2% annual chance flood plain.

Miscellaneous Notes

- Some features shown hereon may be shown out of scale for clarity.
- Dimensions on this plat are expressed in feet and decimal parts thereof unless otherwise noted. Bearings are referred to an assumed meridian and are used to denote angle only. Monuments were found or set at points where indicated.
- Base of Bearings for this survey is shown on that certain Record of Survey recorded as Instrument No. 2011048124 in the Office of the Canyon County Recorder.
- At the time of the ALTA Survey, there was no observable evidence of earth moving work, building construction or building additions within recent months per Table A Item 1f.
- The subject property has access to Chicken Dinner and Lowell Roads.
- The surveyor was not provided any documentation, was not made aware and did not observe any ground markings on the subject property with regards to wetlands on the subject property.
- The location of underground irrigation lines shown hereon are from observed evidence of above ground appurtenances only. The surveyor was not provided with underground plans or surface ground markings to determine the location of any subterranean uses.
- The subject property is used for agricultural purposes. The trees shown hereon are only to depict the location of the orchards and are not to be used to identify the exact number of trees located on subject property.
- For additional boundary information of section break down, see Record of Survey Instrument No. 2011048124, recorded in the Office of the Canyon County Recorder.

Zoning Information

The subject property is zoned "A" Agriculture

Front Setback: 70 feet along the south boundary (Lowell Road) and 70 feet along the west boundary (Chicken Dinner Road).
Side Setback: 10 feet
Rear Setback: 20 feet

Height Restrictions: 35 feet

The zoning shown above was requested by the insurer, Title One Corporation, pursuant to Item 6b of Table A, but was not provided by the insurer. The zoning information was provided by Connie Lou Aebischer, Planner, Canyon County Development Services on December 16, 2011.

Land Area Note

The land area of the subject property is 1,661,814 square feet or 38.15 acres more or less.

Significant Observations

- Along the northerly boundary, the existing gravel access drive does not follow within Easement Agreement Instrument No. 8600775. The drive starts within easement but meanders into adjoining property to the north. It appears that the drive is used in common by adjoining property owners and subject property. No recorded easement information was supplied with Title Commitment for additional access in adjoining property.
- Along the northerly boundary, the existing gravel access drive that extends easterly pass the easement as mentioned in Note 1 does not lie within subject property and appears that this drive is used by subject property for farming access. No recorded easement information was supplied with Title Commitment for additional access in adjoining property.
- Along the northerly boundary of subject property, the first row of trees are not within subject property but are located within adjoining property and access easement. The location of the trees vary from 1.1 feet beginning at the west to 13.1 feet at the east lying outside of subject property.
- The overhead power line and guy wire lie within the subject properties access easement. No documentation provided for a utility easement of this line.
- The wood shed/garage with metal siding falls 16.3 feet into subject properties access easement.
- The farm access road lies within adjoining property. No recorded easement information was supplied with Title Commitment for this access.
- Irrigation line and irrigation valves fall 1.4 feet within subject property. Surveyor was not able to determine ownership and direction of line. The line is located within an irrigation easement as stated in Significant Observations Note No. 10.
- This portion of the existing gravel farm access road lies completely within subject property and appears to be used by subject property and adjoining property.
- Farming access road in adjoining parcel appears to access from subject property. No recorded easement information was supplied with Title Commitment for this access.
- A 5.00 foot irrigation easement as shown on that certain Record of Survey Instrument No. 2011048124 falls in gravel access road. This easement has not been recorded as of Dec. 20, 2011 but falls under Item No. 17 in Schedule B - II of Title Commitment No. C1131433.
- The existing gravel access road entry from Lowell Road crosses the adjoining property. Appears that road is used both by subject property and adjoining property. No recorded easement information was supplied with Title Commitment for this access.
- The existing gravel access road follows the easterly boundary line. The road falls on either side of the boundary and appears to be used in common by subject property and adjoining property. No recorded easement information was supplied with Title Commitment for this access.
- A portion of the pump house concrete slab lies within the 25 foot prescriptive right of way of Lowell Road. This slab was an old setting pond for the irrigation pump. It has been broken up and is not in use today.
- Underground telephone lines along with their apparatus appear to lie within subject property. The lines depicted on this survey show the possible location based solely on the existing above ground telephone risers and not from any additional surface evidence. The actual location of the buried lines can not be determined except by excavation and exposing said lines. The surveyor was not provided with underground plans or surface ground markings to determine the location of any subterranean uses. No recorded easement information was supplied with Title Commitment for this utility.
