RE: Application for Transfer 77784 and 77785

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered during regional review. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Sincerely,

Sharla Cox
Administrative Assistant

Dear Mr. Pancheri:

Just a quick note to remind you, that in order to continue processing your transfer applications I need the following;

- Signature authorization for yourself,
- Deeds showing the two pivots and one hand-line in T06NR28E SEC 1 & 12 are now in the name of Pancheri Brothers not Pancheri Inc.
- The ownership change fee of \$25.00 per water right (\$75.00).

Once these items are received I can continue process these applications. If you have any questions please let me know.

Sincerely,

A handwritten signature in cursive script that reads "Kerrie Mathews".

RE: Transfer Applications to cover current irrigation

Dear Mr. Pancheri:

It was a pleasure visiting with you the other day, as we discussed I have put together three applications for transfer.

The first transfer application is to correct the place of use for the two circles and the wheel lines located in Sec 1 & 12 of T06N, R28E. The purpose of this application is to combine the place of use for water right 33-7040, 33-7172 & 333-2138 with the irrigation of 459 acres. This application needs a signature, question 5a completed and \$500.00

The second transfer application is for the big place of use in Sec 9, 16, 21, 28 & 33 of T09N, R28E. The purpose of this application is to re-arrange the place of use to cover additional irrigated acres in Sec 33. In addition, this application splits twenty acres (.40 cfs) off of water right 33-7202 to be used for the third transfer. This leaves 1102 acres for this place of use and covers everything you have under irrigation as of 2011 aerial photography. This application needs a signature, question 5a completed and \$500.00.

The third transfer application is for the circles located between Badger and Deer Creek. The purpose of this application is to combine 5 water rights in addition to the split off the above transfer to one place of use. And change the point of diversion from the above split to match the other five water rights for this place of use. This allows the irrigation of 198 acres and covers everything you have under irrigation as of 2011 aerial photography. This application needs a signature, question 5a completed and \$500.00.

These applications will correct the issues that were identified as a possible violation in the certified letter from the Department in January. If you have any questions please let me know. If not, please sign and complete questions 5a on each application and return with the \$1500.00 transfer fee.

Sincerely,

Kerrie Mathews
