Re: Water Right No 57-278

Dear DWR:

We think it was an error when Hook filed on this water right. Hook never bought the 26 acres that this right belongs to from the Muller's. Muller's later sold this property to Smith and he never filed for this particular right.

The Smiths have since defaulted and Rose and I have this property deeded back to us in Lieu of Foreclosure. Enclosed is a copy of the deed per Pioneer Title.

We are sending all this paper work back in hopes of getting this water back in our name.

Thank You

Dan Muller
