Ron,

To follow up on our phone conversation this morning:

- The total fees for the two applications is \$400 (\$200 for Andrews and \$200 for Berasi)
- A map with Public Land Survey references is needed for the two applications. I've attached one I made for my own reference you can use if wanted. You can also use the Department's online map tool to make one if you would like <http://maps.idwr.idaho.gov/TransferApplicationLayouts/Map>
- Berasi's application should be an exchange versus a transfer application due to the proposed pump station for their system located on the Lemhi upstream of the confluence of Kenney Creek and the Lemhi. Also the point of diversion should be in the **NWNE** versus the **NENW** of Section 31 Township 20N Range 24E.
- A signed copy of Berasi's 1/23/2012 letter submitted with the applications (copy attached).

Please let me know if any of this is incorrect or if you have questions. Thanks.

Nicholas Van Dyke

Subject: Berasi and Andrew's Transfers

Good morning Nick,

I realized last week that I did not include a check for the necessary fees associated with the Berasi and Andrew's POD transfer and exchange. Please let me know what I owe you on that and I'll get you a check asap in order to keep those transactions rolling. Also, as I mentioned in the sticky note, if you need Bob and Amy Berasi to sign the letter portion of the application, I can get that to you as well.

Best regards,

Ron
