WATER RIGHT NO. 2-10299

CONDITIONS OF APPROVAL CONTINUED

3. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
4. If the Gem Irrigation District water appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
5. This right when combined with all other rights shall provide no more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
6. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 17.1 af at the field headgate for irrigation of the place of use.
7. Water shall not be diverted under this right when flows in the Snake River are below established minimum flow amounts at the following location: Weiser, 4750 cfs.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 12th day of March, 2012.
