

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. _____

RECEIVED

FEB 10 2012

WATER RESOURCES
WESTERN REGION

1. Name of applicant(s) Joe Watterson / Josh Guffie Phone (208) 861-1678
 Name connector (check one): ☐ and ☐ or ☒ and/or
 Mailing address: 12601 W. New Hope City Star
 State ID Zip 83369 Email: JOE@24westranch.com / JoshGuffie@gmail.com
 2. Source of water supply Ground which is a tributary of _____
 3. Location of point(s) of diversion: N/A

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
4N	1W	6			SW	NW	ADA	Ground water	

4. Water will be used for the following purposes:

Amount 0.26 cfs for irrigation purposes from APR 15 to NOV 15 (both dates inclusive)
 (cfs or acre-feet per year)
 Amount 0.08 cfs for Irrigation purposes from APR 15 to NOV 15 (both dates inclusive)
 (cfs or acre-feet per year)
 Amount 0.08 for Stock Water purposes from APR 15 to NOV 15 (both dates inclusive)
 (cfs or acre-feet per year)
 Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

5. Total quantity to be appropriated is (a)
- 0.28
- cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

6. Proposed diverting works:

- a. Describe type and size of devices used to divert water from the source. Pump - TBD
See # 11
 b. Height of storage dam N/A feet; active reservoir capacity N/A acre-feet; total reservoir capacity N/A acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.
 For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☒ No
 c. Proposed well diameter is 6 inches; proposed depth of well is 50 ± 150 feet.
 d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
 e. If well is already drilled, when? Not drilled yet drilling firm _____;
 Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

- a. Hydropower; show total feet of head and proposed capacity in kW. _____
 b. Stockwatering; list number and kind of livestock. 50 Cows/Beef
 c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____
 d. Domestic; show number of households _____
 e. Other; describe fully. _____

RECEIVED

FEB 10 2012

8. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
4N	1W	6														~~12~~			~~12~~
4N	1W	6				-			2	11									13
									5	5									
																5			

Total number of acres to be irrigated: 12.0

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Farmers Union for current irrigation water

10. a. Who owns the property at the point of diversion? Joe Watterson
b. Who owns the land to be irrigated or place of use? Joe Watterson
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: N/A

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. This well is to serve 12.4 acres of organic produce, and stock water. ~~for~~ The pressurized system will feed drip lines for the produce. During the winter, it will be used for 50 head of cattle.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Date Filed: 2/10/2012
Place of Use: IRRIGATION & STOCKWATER
T04N R01W S6 L5(SWNW) SENW
Total Acres: 13
Water bearing zone to be appropriated is from 100 to 140 feet.

PROPOSED CHANGE OF WATER RIGHT(S)

Riverside Village HOA Inc. of 5537 N. Glenwood St. Suite A, Garden City, ID 83714 filed Application No. 77710 to transfer 2 water rights with 1981 priority dates. One right authorizes 3.21 cfs from the Boise River for aesthetic use, with return flows to the river via Riverside Creek. The other right allows 3.21 cfs from Village Lake (aka Glenwood Lake) to irrigate 11 acres of greenbelt etc. and provide a water amenity (subdivision ponds). Uses are for Riverside Village Subdivision north of the river and west of Glenwood. Application proposes to correct the records for existing uses: 11 acres of irrigation in a 66 acre area, and 12 aesthetic ponds spread throughout the subdivision. Creek and lake names are local names, not naturally existing features.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the rights &/or proposed transfer, please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 4/2/2012. The protestant must also send a copy of the protest to the applicant.

GARY SPACKMAN, Interim Director

Subject: Re: Application for Water Right 63-33626

Hi Kay,

I just spoke to Coonse Well Drilling who is probably going to do the work for us and they have done a number of wells in this area and close to the one I am proposing. They said the water bearing zone is between 100-140 ft.

Please let me know if you need any more information to move forward.

thanks!
Joe

Gentlemen:

I just completed an initial review of your application for water right permit and find that I need more information.

We need to know what water bearing zone you plan to appropriate (this is the area in the well that you propose to place your pump). Your application states that you plan to drill the well to a depth between 50 and 150 feet. Please complete the following sentence and return to me so we can get your application advertised.

Water bearing zone to be appropriated is from _____ to _____ feet.

We also notice that you have surface water from the Farmers Union Ditch Company for this land. What are your intentions for this water? Do you plan to use the well when the surface water is not available or was it your intention to use the well water only? We normally would condition this proposal that surface water must be used prior to use of the well water. Will the use of surface water be problematic in the organic operation? Please advise us of your intentions concerning this matter.

If you have any questions or concerns regarding the above, please feel free to e-mail or call me at 334-2190.

Sincerely,

KAY WALKER

Sr. Water Resource Agent

Hi Kay,

Thanks for following up with us. I think we may have to consult with the well drilling company to determine what depth we would need to place the pump, if I understand the question correctly.

Note: { Since we are growing organic produce in this field and need to adhere to organic standards, we are needing to use clean ground water that has no chemicals, herbicides or pesticides that you get with ditch company water. We also need a year round water source for livestock.

I will call you in the morning to discuss further.

thanks
Joe
