SOUTHERN REGION

Bill,

Your assumption is correct. The box in Part1B Section 4 was checked in error, so please make the appropriate correction.

Thanks,
Steve

Subject: Transfer 77753 for Water Right 43-2704

Steve,

On the application for transfer under Part 1A. Purpose of Transfer, Section 2, the application describes the proposal in narrative form as "adding 2 existing places of use and 1 proposed place of use".

Then on Part 1B. Description of Rights After Transfer, Section 4, the box is checked to indicate no changes in place of use are proposed and the chart below is populated with changes. I'm assuming the box was checked in error as it contradicts the intent of the transfer. Could you send me an email for the transfer file indicating the box in Part1B Section 4 was checked in error and then I can make the appropriate corrections on the application.

Thanks,
Bill Mills
