WATER RIGHT NO. 63-31243

FOR DEPARTMENT USE ONLY

Preliminary check by _____ Fee = 100- Received by SRT # CO94608 Date 1-31-2012

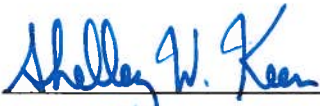

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, GARY SPACKMAN, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 63-31243 with the following:

CONDITIONS OF APPROVAL

1. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
2. Water bearing zone to be appropriated is 240 to 473 feet.
3. The issuance of this right does not grant any right-of-way or easement across the land of another.
4. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
5. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
6. Place of use is within the service area of the City of Nampa municipal water supply system as provided for under Idaho Law.
7. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

Witness my hand this 7th day of March, 2012.
