LAPSE NOTICE

RE: PERMIT NO. 65-22632

IMPORTANT: This permit has lapsed because your request for extension of time was denied. Development and/or use must cease.

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. No further construction or additional development is authorized under this permit.

On your denied request for extension of time I noticed that you stated your extent of use completed is watering a small orchard, garden, working sprinkler system on two homes, and sprinkling about four acres of pasture. If any water was put to beneficial use prior to the date proof of beneficial use was due (February 01, 2012), you may file a statement of completion "proof statement" now for the portion of irrigation you are using which is the amount you will be licensed for.

If in the future you plan to develop the remaining six acres for irrigation you may apply for another water right to cover additional water use. Application forms are available from any department office, or at the department's website at: www.idwr.idaho.gov

Enclosed for your use is a Statement of Completion form for submitting proof of beneficial use, along with instructions and a license examination fee schedule. An acceptable proof statement must be received by this Department within sixty (60) days of the mailing of this lapse notice in order to reinstate this permit.

If you have any questions, please contact Darla Block at 208-287-4945.

Sincerely,

Jeff Peppersack, Chief
Water Allocation Bureau
