Gary,

As noted below, Dan & Monica are out today. Monica anticipated some discussion after sending a copy of Dan's final review memo on these WSB Lease applications to Mr. Telford's attorney, Rob Harris. The question is how many irrigated acres could be confirmed under the rights proposed leased to the bank? The result of Dan's review of all the submitted documentation was considerably less than the total authorized acres: 1787.6 acres of 2124.0 total authorized acres. Much of the right holder's argument for additional acres is based on proposed mitigation through unapproved temporary transfers & consolidated mitigation plan correspondence from 2005.

I have attached Dan's review memo with attachments & a copy of Rob Harris' last letter. I have the box of rights & related WSB applications if you would like to review them. The memo pretty much outlines the logic in our thinking. If there is an error or misinterpretation of the outlined facts, please advise us.

I will be up to visit with you shortly.

Pam

Hi Rob,

Dan spent some time considering your letter and previous emails, as well as all the documentation submitted to this point, and Dan, Pam and I had a long talk about these lease applications. Dan wrote a review memo for the Bank lease applications. I'm supplying it to you with its various attachments. We probably should discuss this when you have had a chance to read it. Dan and I will both be in on Monday, Tuesday and Wednesday next week. Starting Thursday, Dan will be off at least 4 weeks. I'll be on vacation over Labor Day weekend. Let us know when you have some time, hopefully early next week so Dan can be involved. Thanks!

Monica
