Comment: Parent WR 95-2123 split into 95-9999 (Triple Grace) and 95-10000 (remaining with Paul N Thomas)

The address for Triple Grace, Inc. has changed since they submitted ownership documents in 2006.

I created the POD shape based on the field exam map.

I created the PPU based on the intersection of the water right and Triple Grace property.

I added the standard irrigation season as the season of use.

No season of use or volume was issued on the original Thomas right. How do I address volume and combined use limits?

Pump sources water from the Spokane River. Can I add minimum stream conditioning?
